

Churchyard Gardening

Firstly I'd like to apologize to all those people who have to slide along the muddy path through the churchyard. We all think the cobbles are tricky enough to walk on but the middle section of the path, being unmade and frequently underwater, is even more difficult.

There is a contractor waiting to put in a bonded gravel path that I think will suit the churchyard but I am still waiting for Planning Permission from the Diocese.

Although caring for the graves is a family responsibility there is a monthly working party which meets on the second Saturday of every month from April until October. The work consists mainly of mowing, strimming, removing ivy from the walls and ensuring the paths are clear. We would be very grateful for any help you can offer.

The dates this year will be April 13th; May 11th; June 8th; July 13th; August 10th; September 14th; October 12th
